## A Message from Dave

### Ground Hog Day

Yea I know... I've used this analogy before – It seems like I'm watching the movie Ground Hog Day as far as all the spring Friday & Saturday cruises and shows getting rained out, or having lower attendance due to damp and cold weather. 2017 appears to be just like last year at the point of putting this issue together. As I write this column, the forecast is for another wet weekend. Scott just called to announce the Beers & Gears show had to be re-scheduled to June 4th. Hate to say it, BUT I hope the summer is not a repeat from last year.

I get calls all the time from readers asking the same questions: Where can I pick up a copy? Can I subscribe? How come my show is not listed in the magazine? The list goes on and on. Well, on page \_\_\_ I have done my best to answer most of the regular questions. How about tearing out the page and saving it for future reference- that way if your friend has any questions, you can do both of us a favor at the same time.

Looking back almost eight years ago at this point, boy the magazine you are holding in your hands or reading on your computer screen sure has changed. Most of you that know me, know I'm not one to pat myself on the back and boast about my accomplishments. Well, I'll deviate from my normal personality and do just that folks. Way back in 2010 when the Car Show & Cruise Guide was started by me, we just put something short & sweet together to kind of test the waters. I paid for a booth at the Indoor Nationals and wasn't even sure we would have a magazine to hand out when the deadline for booth space came about. Would I get enough advertising support, would the car guys & gals embrace it, would I even be able to pay my bills? Well the short answer was a big YES!

We have more than doubled the amount of pages, sometimes coming close to three times the amount. Immediately, we had requests for more copies, larger distribution, more photos, and the list goes on. With the help of Hutch and his artistic talents, Bill, Mike R, Mark, Drew, Anita, and Mike K with tons of photos, and all the clubs doing their part to send in listings, we sure have grown up. So I'll pat myself along with everyone else on their backs, and say well done! There, that ought to do it for me for another seven or eight years- Oh yea- couldn't have done it without the support of our loyal advertisers- thank them by supporting them next time you need something for your ride.

*Happy Cruising, Dave*

# PROUD TO BE AN AMERICAN

# YORK US30

## HERITAGE DAYS

**EASTERN MUSEUM OF MOTOR RACING**

**LATIMORE VALLEY FAIRGROUNDS  
YORK SPRINGS, PA**

**T**he Second Edition of York US30 Heritage Days and the 16th Annual York Reunion will be presented at the Eastern Museum of Motor Racing and the historic Latimore Valley Fairgrounds in York Springs, Pennsylvania on July 7th and 8th.

Arnie "The Farmer" Beswick a drag racing legend and icon will be featured with his "Tameless Tiger" Pontiac. Arnie will be available both days for photo ops and autographs along with a host of other drag racing notables from the past and present. Al Joniec famous for his "Batman" race cars will be presenting an engine seminar on Saturday from 10 a.m. until noon. Friday is Dave Strickler Day a Salute to another legend whose famous "Old Reliable" Chevrolets became household names. The Ford Fairlane Club will have their awesome Ford display in the fairgrounds on Friday all day. The Annual Legion of Honor Awards will be presented to nine deserving recipients at 5 p.m. Each recipient receives an individual award and their name is placed upon a perpetual award on display in the museum in perpetuity.

Saturday is Ed Miller & George Cureton Day with a Salute to the 50th Anniversary of their NHRA World Championships at Tulsa, Oklahoma. Special race car displays will accompany both World Champs on a day to remember. It happens one time!

The new addition at the museum will feature the Frantic Ford funny car and the Grumpy's Toy IV Camaro of Bill Jenkins along with a host of vendors with drag racing memorabilia from the past.

"Ohio George" Montgomery will be on hand to compliment the new Willys gasser display in the museum.

A flea market features vendors with a host of interesting automotive items both days in the fairgrounds.

Saturday also features a Glory Days Cruise-in and Car Show from 10 a.m. to 3 p.m. Awards will be presented including a giant Best of Show award.

A sensory experience is presented both days with legendary race cars starting-up and providing the

familiar music to a drag racers' ears.

Admission is \$10.00 per day or a special two-day ticket for \$15.00. The event financially supports the Eastern Museum of Motor Racing.

Activities continue on Sunday with the 14th Annual York Nostalgia Nationals at Beaver Springs Dragway, Beaver Springs, Pennsylvania. See many of the legendary race cars competing in this special event that occurs but one time each year.

# Car Show & Cruise Guide

## Questions... Questions... Questions ???

The Cruise Guide celebrates its seventh year in a big part to all the great Advertisers & Readers. For some reason, I expect that by now everyone would know exactly what we do. For the record, our mission is to support the hobby we all enjoy, and to be the best resource both in print and online to find an event to attend. So, let's get these questions answered that I get all the time, and then I can get back to what we do best....

**1. Can I subscribe?** Yes, if you have a hard time finding a copy, or live out of our normal delivery area, then that's the best way to get a copy in your hands. We mail to subscribers before starting the delivery. There is always a form in each magazine, usually on one of the event pages. It costs \$20.00 per year.

**2. Do you have a website?** Yes, it is [www.carcruiseguide.com](http://www.carcruiseguide.com) you will find updated listings, and can download a copy of each issue to read, right off the site.

**3. Where can I find a copy?** Most of the advertisers whom list their address and have a retail location open to the public have a copy for you- don't forget to buy something you need from them- after all, they are the one's paying for your free magazine.

**4. Where is it distributed?**

Central Maryland, Northern Delaware, and South East Pennsylvania. Our current rate structure that is based on printing 6000 copies doesn't allow us any further expansion. From the start, with the constant demand for more and more magazines, we doubled the amount of copies we print. Now we have almost 15,000 print readers, and get almost 100,000 visits to the website each year. All without increasing advertising rates in seven years!

**5. Can you just mail me a bundle of magazines for my club?** I have been doing just that for years, spending hundreds of dollars to get magazines to the outlying areas. Some clubs have stepped up to help with the freight, and I appreciate that. If your club or group wants copies and are not in my normal delivery area, contact me.

**6. How come my show is not in the magazine?**

Did you email or mail me a copy of your free listing? We do collect flyers at some events, but to ensure your show is in the magazine- send it to me two months beforehand please. We only have so much space, so certain events held outside our coverage area may not make the magazine.

**7. How can I get extra exposure for my event?**

Take advantage of our extremely low display rates. Clubs are finding out that it costs less to buy an ad than printing a bunch of flyers and spending hours distributing them.

**8. Isn't this the same publication I used to read years ago?** NO, it is not. This is the CRUISE GUIDE, not "letter". I started it from scratch, had no help from any other publication. I saw a need and filled it. Just say "Cruise Guide"

**9. How do you make any money since it is FREE?**

Well, if you look at my tax return, the easy answer is that I don't. The magazine is advertiser supported, which pays for the cost to print and distribute. Since the inception, the magazine has covered

my costs, but you can't make a living in print anymore, unless you own the printing plant. I did this to help the hobby, not line my pockets. Three years ago, we started the Upper Bay Boating magazine. Now that I have two publications sharing the expenses, I can now pay myself something out of the business. Basically semi-retired!

**10. How do I get my car in the Readers Ride or my garage in the Man Cave?**

Just contact Hutch or me, and we will make it happen. A publication like this can't exist without some participation from the readers. So please contact us anytime to submit story ideas, or show listings, and club news. Also, if you have to, more questions!

# Road Trip!

by Dave

## Harrisville, West Virginia

Harrisville West Virginia takes you back in time, no chain stores here. Main Street consists mostly of store fronts from days of old. Today they are occupied by Crafters & Artisans. There is a turn of the century hardware store left but what intrigued Diane & I the most was a 5& Dime and one man's personal car museum. The museum is open by appointment so we made arrangements with Cliff to visit the next day. Check out the Man Cave feature for more pictures of the museum.

Berdine's is the nation's oldest continually operating 5 & Dime. It takes you back to when you were a kid – full of candy and gizmos & gadgets. After we stocked up on a bunch of hard to find items and way too much candy, it was time to get some exercise. A quick car ride brought us to the North Bend Rail Trail. It featured several tunnels, one which was over 2200 feet long. In the 1830s, it must have taken a ton of work, determination and dynamite when these were constructed along the the B&O railway. We only had time to walk a few miles of it's 72-mile length, but they were beautiful ones!

# Foundation Update

by Doug Wood

As I write this I'm chomping at the bit to leave for Ocean City! Cruising Ocean City is always a highlight of my spring; particularly this year because my Oldsmobile has been locked in the garage since September! Now on to some foundation business...

Last issue I promised you a little insight into what you may find at one of Ron's Rods metal meets. Generally Ron invites anywhere between 10 and 20 expert metal shapers. Other folks that come by get to see these metal magicians turn flat metal into amazing shapes. The last metal meet they were working on a phantom three door '57 Chevy pickup truck. Other events have seen them making a copper bodied model-A speedster. You can expect to learn how to weld, possibly help to maneuver metal through an English wheel, watch them operate a Pull-Max or planishing hammer... Shot bag and hammer... the list goes on. Consider talking to Ron to schedule a visit. As I've mentioned before we will be sponsoring two of these events each year. The one in the fall is yet to be scheduled, however I

encourage you to seek out young family members, neighbors or even acquaintances that may enjoy learning this trade or at the very least checking it out.

On a similar, but different note; we are still excepting applications for our scholarship program. Your club really should nominate someone. Please spread the word!

Lastly, the benefit car show for the CCCEF will be held on July 29th at Columbus Gardens. Keep an eye out for more information on Facebook and also in this issue of the Car Show and Cruise Guide. As always, I look forward to running into you at one of the many events happening around our area. Catch you on the return road!!

– Doug

# Getting to The POINT

with Frank Brusque

## Things Not To Do When You See A Hot Rod On The Road

We know you've seen those lists of what to do/not do at a car show, but lately I have had a couple of situations on the road that have raised my alert level, so I thought I would pass on some advice to my fellow road users. Without further ado, here is my list of things NOT to do when you see a hot rod driving down the road:

### 1. PLEASE DO NOT HONK YOUR HORN!

We appreciate the fact that you appreciate our car, but please don't honk your horn to get our attention. Ok, maybe a short beep, beep might be alright, but straight out honking your horn is startling! Your horn is supposed to be used to alert other drivers, not to say hello or show approval. I've had a few situations lately where people going the other direction have honked at me, and a person's natural reaction to someone honking from the other lane is that they are going to crash into you.

When I am traveling 40 mph going east and you are traveling 40 mph going west, by the time you honk at me you are either right at my window or past me, so I have no idea that you are honking your approval. Just keep it to yourself and save my nerves.

Just this morning at a traffic light, I had a guy who was going the same direction, but in the other lane 3 cars back, who just had to acknowledge his appreciation. He honked his horn no less than six times, confusing everyone (including me). When I turned my head to see what was the matter, he gave me a thumbs-up. I gave him a half-wave while I rolled my eyes. I regret rolling my eyes, but seriously? You just freaked everyone out just to make contact with me and the guy in front of you thought you were telling him to go!

### 2. DO NOT TAKE OUT YOUR PHONE TO TAKE A PICTURE OR VIDEO!

Rolling down the highway The most unsafe thing you can do besides texting and driving is taking a picture and driving. Don't risk the lives of other drivers just so you can get a picture of a car that you will probably never do anything with anyway. Congratulations, you now have a picture of someone else's car that you probably don't even know what year it is. What are you going to do with that fuzzy picture anyway?

### 3. DO NOT RIDE FOR AN EXTENDED PERIOD NEXT TO A CLASSIC CAR!

Why is this a problem you ask? Whether I am driving down a surface street or the interstate, chances are I am trying my best to keep in my own lane. Classic cars, especially those with original steering components tend to track along with the bumps and ruts in the road, so we are much busier than you in your

2015 GMC Yukon. On top of that, we are always looking one step ahead for potholes and obstructions in the road. We may need that extra room to avoid something up ahead. The same goes for a classic on a trailer – we are doing the same thing with a truck and trailer!

### 4. NEVER PULL IN FRONT OF A CLASSIC!

Modern cars can stop on a dime. Classics? Not so much. Many classic cars are heavy and have drum brakes. We need that extra stopping distance to safely slow the car down. If you take away that space, you might just be asking for a chrome horn to be used inadvertently. Ok, so what if we're on the interstate and you pass us? Please give us a little extra room. If you cut it a little too close, you just taken our ability to see one step ahead we just talked about not to mention you could kick up road debris that could cause a trip to the painter or the glass shop

### 5. DO NOT MAKE US ROLL DOWN THE WINDOW TO ASK A QUESTION!

Someone once said "there are no stupid questions, only stupid people." I'm not sure about that, but I have certainly heard some dumb questions. I don't mind telling you that I am driving an Oldsmobile, not a Buick or a Chevy, and that it is a '63 if my window is already down and we are stopped at a red light, but don't flag me down going down the road to ask me – I'm kind of busy driving here! If I have my windows up, chances are I have my barely adequate AC trying its hardest to cool the interior. If you want to ask me a question, I have to slide across the giant bench seat just to roll the window down (yes most old cars had windows that you had to manually roll down), then turn down the radio, and turn off the wind tunnel otherwise known as the air-conditioning just to hear you over the exhaust. After I have done all that, forgive me if I roll my eyes, when you ask "what year is that?" and have nothing else to follow it up with. What are you going to do with that new found information?

## The Car As Art

This V8 powered roller skate was spotted at the Columbus, Ohio Goodguys event a few years ago. Don't know if the owners drove it to the show, but it was cruising around the fairgrounds. It had a dash, windsheild, sideglass, headlights and seats that looked like barstools.

## 2001 BMW Gina Light Visionary Model 36

*Indiana Museum of Art 2015*

photo by  
Bill Ross

The BMW GINA Light Visionary Model was designed by Christopher Bangle and staff to consider consumers' immediate needs and desires in both styling and function. The Gina's shape could change through the use of flexible tensile fabric stretched over a movable body frame of aluminum and flexible carbon fiber. When needed, the front headlamps would be exposed, and the taillights would shine through the fabric. The seats, steering wheel, head rest, and console automatically responded to each individual driver.

Production automobiles require expensive tooling to form metal body panels. By making the GINA's body out of fabric, Bangle and his team sought a way to reduce tooling expenses and facilitate more frequent style changes.

# Club News

## "Boulevard Cruisers" Era Begins

The very first ever Boulevard Cruiser Mike in his white Firebird- Congratulated by Jeff Barnes.

## The Recycled Teenage Cruisers

The Recycled Teenage Cruisers held their annual banquet at Hershey Farm Restaurant in Pennsylvania on April 1, 2017. There were 78 members in attendance and the great food was enjoyed by all. The weather was also great, allowing many members to drive their cars to the event. Every attendee walked away with a door prize.

## Auto Plus Open House & Cruise-In

Auto Plus Open House & Cruise-In May 6th. Dispite the rain showers, they ended up with a nice crowd.

Kemp in front of his just completed three year restoration of his blue Chevelle

## The East Coast Drifters

The East Coast Drifters put on their May annual show at the Mechanicsville Moose Lodge on May 7, 2017 from 9-3! Rainy weather preceded the show date, it was a little chilly, by 134 cars came out to support them. The East Coast Drifters events are always for local charities.

Our Tri-County Cruise winners were: Top 60: Tony Hall - '84 El Camino, Paul Harris - '49 Dodge Pickup, Mike Hall - '63 T-Bird, Bill Bushey - '31 Model A Ron Gregory - '67 Lincoln Continental, Best Rod 1st Place: Jim Morris - '47 Dodge Pickup Work in Progress: Rick Kidwell - '50 Ford Business Coupe

Great work done by the East Coast Drifters again this year aside from the weather issues!

**Calling All Car Clubs.... This page is available to you to promote your individual club activities and gain some recognition with our readers. For years, we have opened up this FREE opportunity to you, and get very little feedback. Our next deadline is May 15th, and if we continue to see little to no interest from you, this page will be discontinued. If you want to grow your club, marketing and free publicity is what the experts will tell you to do. The ball is in your court. Dave Bielecki: 410-937-6866 davebielecki@aol.com**

# Man Caves

Our feature page showcasing the Gearhead's favorite building—**The Garage**. It is a revered place, where guys (and gals) who really love cars can work, or just hang out and BS with friends and experience the satisfaction you get from building and owning a cool car or two. For some, it is a home away from home. Hell, we bet some of you have more \$ in the garage than you do in your home! Show us your Man Cave. Go to [www.carcruiseguide.com](http://www.carcruiseguide.com) or email Dave Bielecki, [davebielecki@aol.com](mailto:davebielecki@aol.com) 410-937-6866 (Of course, the location will not be disclosed).

## Cliff's Museum of Car Memorabilia

by Dave

Since this is just one man's collection, I decided it would make a great Man Cave column. Our hosts Cliff & Sue Weese showed us around the museum of all his personal artifacts. The building is a 1940,s car dealership which Cliff has filled up with his lifelong collection. We even found out all the apartments on the second floor are full of additional items. While Cliff does not have every license plate ever issued in West Virginia, I am willing to bet his collection is the most complete one. Tags from the turn of the century were on display along with some newer Nascar ones, and a few that had been on past Governor's cars. Cliff's favorite car is a 1929 Chevrolet AC Convertible Landau, shown behind the couple, one of only 16 left!

## Sugarloaf

*photos by Bill Ross*

# Reader's Rides

## Pete and Sandy Robinson's XR-7 Cougar

The car is a 1968 Mercury Cougar XR-7 hardtop. It was special ordered new by the original owner in April of 1968 from Fiore Lincoln Mercury in Altoona, PA. He specified Augusta green exterior color with saddle leather interior. The only options that he requested were an AM radio, console, and four speed manual transmission. Quite unusual for the upscale XR-7, as most were ordered with power steering and brakes, automatic transmission, tinted glass, vinyl top, etc. In fact, according to the Marti report, of the 32,709 XR7's produced in 1968, only 530 were ordered with this particular engine and transmission combination.

The car was always garage kept, driven only sparingly, and upon his passing was put into storage and not driven from 1988 until 2007, when the second owner, also from Altoona, purchased the car from his family. At that time, the car was still wearing it's PA license plates with an expiration date of March 1988. When resurrecting the car from it's nearly 20 years of storage, the second owner saved all of the original maintenance items that he replaced, including the original tires, belts, air filter, thermostat, tune up parts, brake parts, etc.

We were able to purchase the car from the second owner in August of 2016 when he lost his indoor storage for the car. Up until that point the car had never left the Altoona, PA area.

The car to date has only 19,500 original miles, and retains it's original paint and interior, chrome, all of it's original numbers matching engine and driveline components (including the thermactor pump) and even it's original exhaust system and FOMOCO script headlight bulbs. It truly is a real time capsule.

It will be a special invitational display vehicle in Building T at the Carlisle All Ford Nationals as a part of the 50th Anniversary of the Mercury Cougar Celebration.

**Have a Car or Truck with an interesting story? Or some cool old photos?**  
**Why not share it with our readers and see it printed in the magazine!**
