*Car Show
& Cruise* 

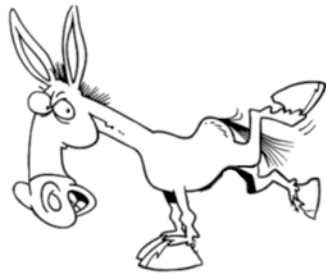

A Message from Dave

I started looking at last year's October issue and my old column. I could take the easy way out and just re-run parts of it as I commented at the time about all the rain we had. Didn't think it was possible to top those massive rain falls but we have a winner this year. Really sucks that so many cancellations have gone on so far. Just maybe we could end this on a high note; clear skies for the remainder of the season wouldn't be too much to ask for. Besides, it really has only rained twice since the last issue came out; once for 30 days, and the other time for 25 days!

I'm willing to bet that you have a spare 50 bucks in your pocket after missing so many shows because of the weather. Why not attend the Custom & Classic Car Educational Foundation's Bull & Oyster Roast? It's a great way to still hang out with friends in November, and the proceeds go to a good cause, trying to keep this hobby afloat. Check out the ad in this issue, or check our website for more information: www.SaveTheHobby.org.

I have never tried to push my political views on anyone before, and vowed to keep them out of this magazine. However, as a resident of Maryland, I am very concerned about her future, so here goes.

Pay attention and vote. For my liberal friends, why would you gamble your vote on Ben Jealous when he promises to raise your taxes, when the current Governor has done so much to make Maryland a better place? To my conservative friends, why would you sit on your hands and basically give the office to Ben? You may not agree with everything that Larry Hogan has done, but in this state, he is the best we are going to get. Please do the right thing and give the Governor a second term. Please don't make me move out of Maryland- I've been here since 1966. Oh well, enough of that stirring the pot. If the wrong guy gets in, I'm buying stock in U-Haul and making some real estate agent happy. To our readers in Delaware & Pennsylvania, please accept my apologies for this rant. Not that I don't like your state, but we are happy in our current home.

Just in case you don't pick up the December & February issues, we host an All Clubs Breakfast over the winter and usually announce it in those issues. You really should attend and let the car community know a little about your club activities or your show, and learn about the issues going on in Annapolis that directly impact the hobby. Check our website for details over the next few months.

And finally, for the life of me, I can't understand why some promoters are too lazy to email or mail me information about your show. The listing is FREE, and taking a few minutes to send it in is much easier than spending all that time putting out flyers. Remember, it won't be in these pages unless you send it in. Wow- I can't believe I got two rants into one column!

Happy Cruising, Dave

Diane in her driveway back when we were dating in 1977.

Diane next to Barney's side car at the Andy Griffith Museum in 2018.

We thank everyone for all of your prayers for Diane's recovery. She is living proof the prayer works.

During the production of this issue, Diane Bielecki, President of this publication suffered a stroke and was

in the ICU for days. I wanted to let everyone know she is doing amazingly well, just a few days later. After a month of occupational therapy, I hope she is back to her old self.

CLASH OF THE TITANS

CLASH is a powerboat and classic car show held at Joppatowne Marina on August 25th, a beautiful day. Mark & Barbara really know how to put on a party- both the car and boat crowd had a great time.

photos by Mark Schappell

MECUM

Harrisburg

photos by Mark Schappell

Dave and I went to the Mecum Auction in July, a first for me. The excitement in the room comes thru on TV, but not s much as being there. Lots of memorabilia everywhere. -Hutch

CarPool!

Duncan Forster and Phil Weicker built their first tub-on-wheels as undergrads at McMaster University in Ontario, Canada. With a fellow student, they transformed an abandoned 1982 Chevy Malibu into a pool. "This thing was hideous," Forster says. "The car barely ran, but we were really proud of it."

Twelve years later, living in Los Angeles, they bought a 1969 Cadillac DeVille and one-upped their beloved jalopy. The "Car-pool DeVille" ran so well, Forster and Weicker set an even more ambitious goal: world's fastest hot tub. A successful Kickstarter campaign funded a trip to Utah's Bonneville Salt Flats for Speedweek 2014 in Bonneville, Utah, where it reached a top speed of 160 mph.

The Carpool DeVille, which uses its 472 V8 engine to heat the water in the passenger area to a temperature of 102 degrees, was awarded Guinness World Record status earlier this month, and became one of the most attention-grabbing vehicles to hit the auction block recently at the Barrett-Jackson event in Scottsdale. Despite a disclaimer on Barrett-Jackson's listing: "Vehicle cannot be registered or driven on any public roads," The car sold for \$26,400

Foundation Update

by Doug Wood

Good Lord, I am tired of rain! With that said let's get onto a little business!

By the time you read this... Our fundraiser at the Harford Winery will have already occurred. I want to thank the proprietors of this venue for hosting our event. Keep an eye on our Facebook page and I'll keep you posted as to how successful the event was!!

We are trying to make arrangements for a fundraiser at the Oasis Bar and Grill in Walleyville down near Ocean City. The plans are to have it Saturday, October 6 between 11 and five. Hopefully we can pull this together in the next two weeks and will see you there.

Ron's Rods is planning their fall metal meet for October 19th, 20th and 21st. Once again the CCCEF will be sponsoring this event with some breakfast and lunch items. If there are enough young people in attendance, we will adjourn somewhere a little more quiet to have our discussion/forum on potential actions that we as a foundation can take to encourage young people to get involved in our hobby.

I hope you are enjoying the weather when you can and as always....

See you in the return road!!

Doug

Road Trip!

photos by Jerry Wagner

Aramcast Studebaker Museum

Jerry Wagner and his cousin went to the Riviera of America nations show in Kansas. Once they arrived, their tour included the WWI memorial, a GM plant that builds Malibus and the new Cadillac SUV. The highlight of their stops was the Aramcast Studebaker Museum. They were able to see what is likely one of the greatest collections of rare and vintage Studebakers in the country. Most of the collection came from an old dealership in the area. The last stop was the Riviera show held at the Double Tree, Hilton in Overland Park KS.

Cars that never made it to the FUTURE

1947 Davis Divian

The Davis Divian is a three-wheeled convertible built by the Davis Motorcar Company between 1947 and 1949. The brainchild of used-car salesman Glen Gordon "Gary" Davis, it was largely based upon "The Californian", a custom three-wheeled roadster built by future Indianapolis 500 racing car designer Frank Kurtis for Southern Californian millionaire and racer Joel Thorne. After building two prototypes in 1947, Davis embarked on an aggressive publicity and promotional campaign for the car. At the company factory in Van Nuys, employees worked frantically to build Divans, although the model was never put into mass production. Despite raising \$1.2 million through the sale of 350 dealerships, the Davis Motorcar Company failed to deliver, and was ultimately sued. The company's assets were liquidated in order to pay back taxes, while Gary Davis himself was eventually convicted of fraud and grand theft and sentenced to two years. Only 13 Divans (including the two prototypes) were ever built, of which 12 have survived. The car featured aircraft-inspired styling details as well as disc brakes, hidden headlights, and built-in jacks.

Man Caves

Our feature page showcasing the Gearhead's favorite building – **The Garage**. It is a revered place, where guys (and gals) who really love cars can work, or just hang out and BS with friends and experience the satisfaction you get from building and owning a cool car or two. For some, it is a home away from home. Hell, we bet some of you have more \$ in the garage than you do in your home! Show us your Man Cave. Go to www.carcruiseguide.com or email Dave Bielecki, davebielecki@aol.com 410-937-6866

ED ROTH STUDIOS

Jim Wines

I met Jim Wines after I acquired an all original '57 Chevy and started searching for stuff it needed. Being a great patina car, I didn't want to use repros, so I didn't search far before learning that Jim is a local authority on the iconic vehicle.

So, I made a trip to his house in Hickory, Md. and discovered no less than five buildings stacked to the rafters with '57, and we rode in his golf cart through what's left of a '57 boneyard in his backyard. In his home, he converted the original garage into his Man-Cave, complete with a model diner with a booth and Seeburg juke box. Tons of old signage, even a lighted one from a old liquor store that reads "WINE'S". His love for the '57 Chev was evident with shelves full of scale models, parts books and a dealership display showing the body and interior color combinations that year. Just a great, friendly guy, and of course, he had exactly what I was looking for, cheap.

Man, I love car people.

– Hutch

Reader's Rides

Larry Borland's '68 Cougar

My Cougar was purchased in May of 2006 from a friend who was once turned away at a car show because it "wasn't a muscle car." Well, if it wasn't then, it is now, with the original 302 built into a 347 stroker with all the good stuff, and the C4 trans has been beefed up with a TCI street fighter equivalent with 6 planetaries. Original underpinnings have been replaced with a Mustang II-style rack and pinion, tubular A arms, which required removing the shock towers, oversize disc brakes and 17-inch wheels.

Larry at the Karb Kings.

The interior has white face gauges and Mustang tach. The steering wheel is a custom piece in which I added the "Mercury Man" insignia out of a luxury Merc.

I did all the research on all the parts, supplied the mechanical work, welding (and the money!)

My friend Ray Quinn powdercoated the axle to match the body, which still sports the original paint. (The red Impala in the photo is one of his many toys).

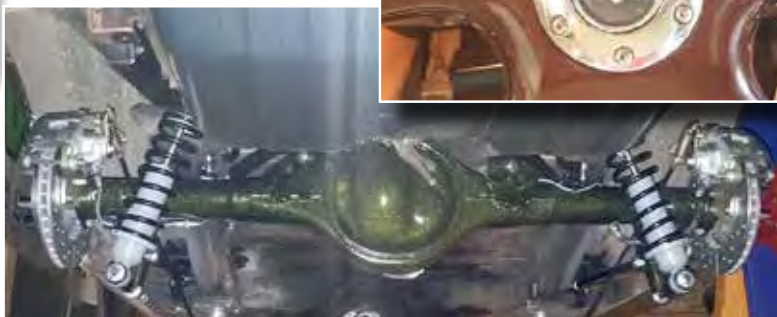

The car turned out just like intended, with a bit of a sleeper vibe, and except for the Steve McQueen "Bullitt" mags, could be mistaken for a granny grocery-getter.

photos by Hutch and Larry

Out back, I used a 9-inch rear out of a Lincoln Versailles, using just the housing and axles. New 350 gears, Tru-Track Posi, and Chevy disc brakes round out the package.

I modified a Mustang 4-link suspension (the Cougar is 3 inches longer), and added coil over shocks and sway bars.

Have a Car or Truck with an interesting story? Or some cool old photos?
Why not share it with our readers and see it printed in the magazine!
