

CRUISE GUIDE *Online* UPDATE

JANUARY 2022

Welcome Car Nuts to the first **Cruise Guide ONLINE UPDATE**

A Message from Dave

So in the December issue we hinted that we were going to come up with a way to satisfy your need to have a new magazine each and every month. Welcome to all new Cruise Guide Online Update.

So what is this you ask? At least half of our readers have been reading the Print magazine online six times a year, so for you guys & gals; here is my gift to you. On the off months, we will have an online only edition that will expand show coverages, and have some exclusive features. You will find some editorial coverage that we have been unable to fit into the print version. Frankly we have so many show photos that I financially just could not place all of them in the regular publication. As you know, print is very expensive and since I pay per page, and per 1000 copies, I cannot expand on my print edition any more.

Starting in 2022, we will continue to print six times a year, and have digital copies of the print edition available to read & download from our site. But now, with the new online edition, we have you covered 12 times a year. Just add us to your favorites on your toolbar, and remember to come back each & every month. And be sure to mention to your friends that they need to start reading us online as well.

You will find more photos of cars from your favorite shows, find out what coming up in the next print edition, and find some new and exciting features. This will be a work in progress, and your feedback will be important to help keep in going. Let us know what you want to add, should be car related, but all suggestions are appreciated. We even might feature vintage campers & boats, maybe even branch out and do a Pet Rescue section. It's really up to you the reader; let me know what you want to see.

And good news for car clubs & show promoters- you can now advertise just online at new special rates- Just ask me how.

**Thank you for your past and future support,
Dave**

Road Trip!

Last issue, we were headed to Stroud, OK, home of the Rock Café. We met the owner, a super nice lady, and had the friendliest waitress ever wait our table. Bryan and I thoroughly enjoyed our lunch and taking in the whole experience. These folks really embrace Rt. 66 tourism. Many of the customers complimented us on doing this run in a vintage car. After lunch, we continued on Rt. 66 towards Oklahoma City. Much of the route is still a commissioned highway until you reach OKC, then it becomes Historic Rt. 66 again.

We visited a friend in Mustang, OK and stayed at the only hotel in that town. I found it ironic the hotel was called The Luxury Inn, as this place was the complete

Primo parking spot at 'The Big Texan.'

St. Louis Arch - 'The Gateway to the West'

opposite of luxury. But it served a purpose. And it was conveniently located between two auto parts stores, because here is where a brake line decided to rupture.

After a valiant attempt to fix the leak on the hotel parking lot the next morning, I quickly decided I could not continue with the limited tools and resources I had while the humidity steadily increased. Courtesy of AAA, the Impala was towed to Mustang Automotive for the necessary repair. Five hours later, I was back on the road.

Because of this delay, we had to skip some of the points of interest we wanted to check out along the way through western Oklahoma and the pan handle of Texas. Dinner time found us in Amarillo, TX at the Big Texan Steakhouse, a Rt. 66 attraction since 1966. This is home of the 72 ounce challenge, where you attempt to eat a 72 ounce steak and ALL of the sides in under an hour and it's free. Although we were hungry, we were not that hungry. If you are ever in the area, I highly recommend eating there!

Awesome sunset in New Mexico.

For the second time, I was forced to drive by Cadillac Ranch on the outskirts of Amarillo as we had to meet up with my wife, Claire in New Mexico. She was on her own road trip and we decided to meet somewhere near Albuquerque. Around 10 PM, we met her in Moriarty, NM, where there is a fireworks store on every corner!

While the Impala was being repaired in Oklahoma, I was able to find a replacement air filter. And on this leg of our journey, the Impala knocked down 19 MPG.

The next morning, we ventured back out on I-40, which parallels much of Rt. 66 in New Mexico and Arizona. Since Bryan had a dentist appointment the following day, we kept sightseeing to a minimum in the interest of getting home. We have actually driven much of Rt. 66 in AZ

World's tallest Cross. Hope nobody's offended.

already, so we took the quickest route possible back to Peoria, AZ.

I'd love to make this run again when I have more time and more knowledge of Historic Rt. 66. Much of it appears to have withstood the test of time, but much of it is crumbling and probably won't be around much longer. See 'ya at the shows!

Tri County Cruisers

Under the Lights on the Baden Volunteer Fire Department's Ballfield, Brandywine, MD

The Tri-County Cruisers Rod & Custom Car Show "Under the Lights" took place on September 24th. This was our 21st Annual show to raise funds to support: The Chesapeake Foundation which has joined with the Hospice of Charles County, MedStar St. Mary's Hospital Hospice and Calvert Hospice. Also, this fundraiser supports: Angels Watch (battered men, women and children), St. Jude Children's Research Hospital and the Baden Volunteer Fire Department (BVFD which has supported our meetings and shows there at Baden for years.) We take pride in how our hobby through this annual fundraiser makes things better for others.

It was the rodders of Prince Georges, Charles, St. Mary's, Calvert and further out counties that supported this fundraiser with the participation of 150 registered rods and motorcycles.

Best of Show Trophy was won by Kathy Reents of Davidsonville, MD with her outstanding '57 Chevy BelAir (Candy Pearl Merlot) Convertible and many other Special Awards and Top 35 trophy awards were won that evening "Under the Lights".

For what it's worth...

PEDIGREE..... According to Merriam-Webster's dictionary, pedigree is "the origin and history of something, especially when it is good or impressive". Okay, I give up, what does a pedigree have to do with Street Rods, Muscle Cars, and cruising.....Well, a lot if you are in the market to buy or sell a collector car. You see, since the day when vehicles were owned by celebrities and one-of-a-kind proto-type cars, a collector car that has some "history" or documented "pedigree" will definitely bring more money than a similar model without it. Let's take for example a 1967 Corvette.

The particular model I am writing about is a roadster (convertible) with a 427 cubic inch Chevrolet engine, 4-speed M-21 transmission, and the original 3.31:1 posi-traction rear differential. Starting in 1967 Corvettes had, what are called, "tank stickers" on the top of the gas tanks, showing all of the options that particular car came with from the factory. It listed everything from the paint code to the engine. This item, along with the Protect-o-plate, the build sheet, trim tag (located under the dash on the passenger side), and dealer window sticker can add as much as 25% to an original Corvette's value. Sure, the car can have the original engine, which has the I.D., year, and VIN stamped on the engine block (if it has not been 'decked') along with the transmission tag, and rear differential, I.D., but to make the car truly verifiable, the paperwork needs to accompany the vehicle.

Various Pontiac models are similar in 'pedigree' too. To be sure you are buying a "real" GTO Judge, or Ram Air car, the Pontiac Historical Society (PHS) provides a copy of the full documentation for any Pontiac VIN. Just log onto their website, pay \$25 and they will send you the original "build sheet" for your car. This really comes in handy when looking at mid- to late 1960's Pontiac muscle cars.

With the increased number of "clones" or "replica" cars being built by private individuals and dealers; having the seller provide the correct documentation for a true classic has become a "must" to attain the maximum selling price for an original and numbers matching muscle car. Happy motoring and hope your Holiday Season is peaceful and safe.

Mezz Sez...

More tales from one of the local founding fathers of Speed

It is a new era for Muscle Cars; who would believe you NOW can put a quarter in the slot and get 700 horse power? Now the fact that 700 hp being piloted by 200 hp drivers is a little scary. Modern tech is working on a driver-less car, so 700 hp driver-less car is like a horse without a rider. So, in the future if you park your car in a lot, will gravitate towards other cars, forming a herd? They might even will choose a leader and advance against mankind. Just the other day, the Google driver-less car was pulled over for going too slow. Turns out the poor officer didn't know whom to issue a ticket for impeding traffic, the car or the passenger? He was too confused, so no one received the citation. With this type of thinking I should run for political office.

2016 is going to be the year of the great auto parts wars. Looks like it will be one chain buying another, now offering the best prices and best service. It reminds me of the burger wars. Come and get the best car wax known to man cures all, even raises your I Q. If car wax makes you smarter, why are we being taken over by driver-less cars????? Just a few thoughts to ponder, from an escapee of the local mental institution. Yea, I'm crazy, still offering good old fashion service and advice.....

I have to mention the good work the Custom and Classic Car Educational Foundation is doing for the hobby. You should consider making a tax deductible donation before the end of the year. 2015 is quickly beginning to just be a memory, but a good one.

Jim Mezz was one of our first contributors with his take on the evolution of muscle cars and drag racing. Jim passed away sometime in 2017 and we miss his good humor.. This first appeared in our December 2016 issue.

Club Subscription Help Needed!

A Plea from Dave-

Over the years, the Cruise Guide has done our best to get bundles of magazines out to various clubs and organizations. With the rising cost of fuel, It is hard to personally deliver to outlying areas, and postage has gone up recently as well. So I really need some help to cover shipping expenses.

For 2022, I am asking for a donation to partially pay the shipping costs to your club. There are 6 issues a year. For 25 copies each time please send \$75; and for 50 copies send \$100 for the complete season. If you purchase ads for your events, we will include the subscription in the ad cost. Please send checks to- TLC Services PO Box 353 Forest Hill, Md. 21050 or contact Dave.

Thank you, Dave

Rust in Peace

This photo series is about interesting vehicles spotted around the country that need a little TLC. The photographers and locations are unknown, so all you can do is cry.

Man Caves

Our feature page showcasing the Gearhead's favorite building – **The Garage**. It is a revered place, where guys (and gals) who really love cars can work, or just hang out and BS with friends and experience the satisfaction you get from building and owning a cool car or two. For some, it is a home away from home. Hell, we bet some of you have more \$ in the garage than you do in your home! Show us your Man Cave. ED ROTH STUDIOS

Bill Gallas has been around cars his whole life, and built a shop at his house where he could work on his cars in retirement. It's full of tools and equipment including a nice lift. Bill has been racing since 1980, and in addition to a '39 Chevy street rod, he has this sinister-looking '78 Pontiac Firebird Formula with a 427 Chevy that he built, running in the 11's.

His garage is full of mementos of his years racing cars and motorcycles. He was also an accomplished off-road Enduro racer back in the 70's, mostly riding a Husqvarna, and he's got the trophies to prove it. One of the coolest things on the wall was a 1959 photo of Bill chatting about a dragster with Big Daddy Don Gartlits. "Big" is wearing the hat, Bill's on the far left.

Bill Gallas has appeared in our Reader's Ride and Man Cave pages and could be found with his other veteran gearheads friends rom Forest Hill on Wednesdays at Gene's Restaurant. Bill passed away back in the Fall of 2021 at the age of 80, and we miss him. This first appeared in our April 2016 issue.

Car Show & Cruise Guide

Announcing the Online Cruise Guide!

New issue will be online by Christmas

Now you can read your favorite magazine every month, all year long!

Starting in 2022, we will have a special online only edition for you to download and print if you wish. So now you get to read the regular magazine in both print or online 6 times a year, and on the in-between months read the special edition online- we have you covered 12 times a year!

You will find more photos of cars from your favorite shows, find out what coming up in the next print edition, and find some new and exciting features. This will be a work in progress, and your feedback will be important to help keep in going. Let us know what you want to add, should be car related, but all suggestions are appreciated. We even might feature vintage campers & boats, maybe even branch out and do a Pet Rescue section. It's really up to you the reader; let me know what you want to see.

And good news for car clubs & show promoters - you can now advertise just online at new special rates - Just ask Dave how.
